# Yaswanth Narisetty

Full-Stack Developer
contact@yaswanthnarisetty.com |+91 7997542585 | LinkedIn | GitHub

## Profile Summary

Full-Stack Developer with 2+ years of experience in designing and developing scalable, high-performance web applications using **React.js, Next.js, Node.js, and GraphQL**. Proven ability to enhance user engagement by 25% and reduce server response time by 30% through optimized code and API integrations. Skilled in authentication and role management **(OKTA**), UI/UX improvements, and automation testing with Serenity BDD. Passionate about building intuitive, **pixel-perfect designs** and delivering seamless user experiences.

## Technical Skills

• **Frontend**: React.js, Next.js, TypeScript, JavaScript, Tailwind CSS, Bootstrap, HTML, CSS

• **Backend**: Node.js, GraphQL, RESTful APIs, Java, Spring Boot

• **Databases**: SQL, NoSQL

• **DevOps & Cloud**: AWS EC2

• **Testing & Automation**: Selenium, Serenity BDD

• **Agile Tools**: JIRA, Confluence, zephyr

• **Version Control**: Git, GitHub, Bitbucket

## Professional Experience

### Vithi IT - Full-Stack Developer | client: ResMed
Hyderabad, India | 06/2022 – Present

• Developed and maintained scalable, responsive UIs for enterprise and eCommerce applications using **React.js**, **Next.js**, **JavaScript**, and **Tailwind CSS**.

• Spearheaded the development of ROC 2.0, a global authentication and role management platform, implementing OKTA session management.

• Led the frontend for an eCommerce platform, optimizing UI responsiveness and improving page load speed by 30%.

• Integrated **REST** and **GraphQL** APIs, ensuring seamless frontend-backend communication.

• Improved cross-browser compatibility and accessibility, reducing errors and improving UX.

• Automated test cases using **Serenity BDD**, increasing test coverage and reliability.

### Zemoso Technologies | Full-Stack Developer
Hyderabad, India | 02/2022 – 06/2022

• Developed dynamic UI components using **React.js** to enhance frontend functionality.

• Learned **TypeScript** for improving code maintainability and scalability.

• Gained hands-on experience in **Java** and Spring Boot, focusing on **REST API** development.

• Strengthened full-stack development skills, improving the ability to work on both frontend and backend technologies.

## Projects

### ResMed Online Connect (ROC) | Full-Stack Developer
02/2023 – Present

• Developed a scalable frontend using **Next.js** and **React.js**, ensuring a responsive and accessible UI.

• Implemented OKTA authentication and role-based access control, improving security and user management.

• Integrated **GraphQL** APIs, optimizing data fetching and backend communication.

• Contributed to automation testing with **Serenity BDD**, improving test reliability.

• Enhanced user workflows and admin tracking features, streamlining platform management.

### Sleep by ResMed | Frontend Developer
07/2022 – 02/2023

• Developed a responsive, user-friendly UI using **Bootstrap** and **JavaScript**.

• Improved page load speed by 30%, optimizing HTML templates and asset management.

• Collaborated with backend developers to integrate frontend components with Hybris.

• Ensured cross-browser compatibility and mobile responsiveness, enhancing UX.
